 SINCE 1997
MANUFACTURING
A BETTER WORLD

European Quality

Eurener is an industrial group established in 1997 in the European Center for Innovative Enterprises (CEEI). Throughout these 25 years of experience, we have developed a production process and know-how that has resulted in a certified product with high quality and multiple applications, establishing a relationship of total trust with our customers thanks to our personalized service.

Certificates

Eurener photovoltaic modules have passed all the main European tests in terms of durability and performance. For this reason, we have the most prestigious certificates at a global level and in different European countries.

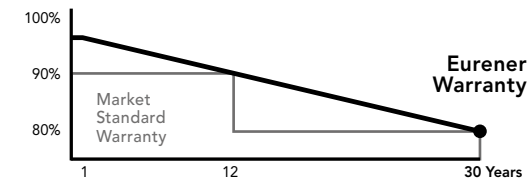

MEPV HALF-CUT ICON 410/415W

Warranties

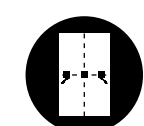

Eurener modules, are designed to last, thus making the initial investment profitable and providing energy for decades. That is why we offer warranties above the market average.

30 YEARS PERFORMANCE WARRANTY
Linear Warranty

20 YEARS PRODUCT WARRANTY
[25 YEARS for Premium Partners]

Advantages

- 
108 CELLS
 - We use M10 wafers (182 mm) with MBB technology for better light absorption. The parallel connection of the Half-Cut modules allows production to be maintained when one side is in the shade, thus reducing cell degradation.
- 
AMMONIA AND SALT MIST RESISTANCE
 - Approved to IEC 62716 and IEC 61701 multiple weather conditions, such as resistance to ammonia or salt mist.
- 
VERSATILE AND CUSTOMIZABLE
 - Our ICON can be manufactured in silver, black and bicolor finishing. It is a technology that fits residential and industrial installations. You can also ask for an original MC4 Satubli connectors or customize the cable length.
- 
FRAME OPTIMIZATION
 - We use 30 mm frames that make the panel easier to handle, at the same time that reduces transportation and storage costs, saving CO2 tones.
- 
PID FREE
 - Our panels are tested against the PID effect (Potential induced degradation) that causes silicon solar modules to reduce their output when operating at high voltages for long periods of time.

FUTURE VISION

At Eurener we work for a 100% renewable and sustainable planet. This commitment means that our main objective is to supply sustainable and long-lasting photovoltaic modules that will allow future generations to continue generating clean energy to take care of our planet.
